

Project Proposal & Concept Note Guidelines

DOCUMENT TYPE**Concept Note Guide****TARGET SCOPE****1-Page Abstract****NEXT PHASE****Chapter 1 Writing**

Key Directives from Lecturer

1. Scope & Length

Submit a concise **1-page Concept Note**. It functions similarly to an executive summary or abstract, detailing core proposal ideas without unnecessary fluff.

2. Topic Selection

Select **one specific research topic**. Due to class size constraints, multiple proposals per student or group will not be reviewed.

Core Elements of the Concept Note

- **Problem Statement / Background:** Highlighting the main problem and what you are thinking about investigating.
- **Research Scope:** Providing clear, high-level information on what the study/project covers.
- **Objectives:** Identifying primary targets and anticipated outcomes of the project.
- **Proposed Methodology:** Briefly outlining how the project or research will be executed.

Project Progression Workflow

STAGE 1	Draft Concept Note: Write and refine the 1-page document focusing on a single, clear topic.
STAGE 2	Lecturer Approval: Submit for review. The lecturer will assess feasibility and grant approval.
STAGE 3	Chapter 1 Drafting: Once approved, proceed immediately to write Chapter 1 of the full proposal.

Action Item & Deadline Notice

The lecturer will provide detailed formatting guidelines and update the submission deadline on the e-learning portal. Take advantage of current free time to prepare your draft early.
